

Spradow – Information 2013

Our new catalogue is ready!

We are glad to present our new, significantly enhanced digital catalog.

From today on, you may either download it straight from our [website](#) or have it send to you by your favorite contact.

In this context, please let us draw your attention to the following development:

To ensure that the high-quality zinc nickel surface is available throughout our complete program, we will now produce the below parts ourselves.

90-degree hose connectors

combination coupling type DKOGE

Next to the clearly higher corrosion resistance you will also profit from better prices.

Just give us a try!
